14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ▶ On April 5, 2013 Pursuant to an Articles Supplementary, each share of Class B-2 Common stock of Retail Properties of America, Inc. ("RPAI") automatically and without any action on the part of a holder converted into one share of Class A Common Stock. Prior to the conversions, Class B-2 Common Stock's CUISP number was 76131V400. The Converted shares will have the Class A Common Stock CUSIP number 76131V202.

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ▶ The stock conversion will not have any effect on a taxpayer's total adjustment tax basis of its investment in RPAI. The taxpayer's adjusted tax basis for each share of Class B-2 Common Stock that was converted into a share of Class A Common Stock will carry over to each share of Class A common Stock that the taxpayer received upon the conversion.

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ▶ Every share of class B-2 Common Stock was converted into one share of Class A Common Stock. For example, a taxpayer that owned 1,000 shares of Class B-2 Common Stock with an adjusted tax basis per share of \$10/share would now own an additional 1,000 shares of Class A Common Stock with an adjusted tax basis per share of \$10/share.
